V1.00 is FREE.

I would not use V1.00 because it had some bugs: In fact, there were 11 revisions of the code since V1.00!

Subject: uCOS 1.0

Hi Jean,

can you remember me.. We had contact some mounth ago.
At this time I have mail you that we have tested the uCOS 1.0 and
implemented Pipes.

Today I must know the licensing-state of uCOS 1.0.
If we want use this version in our BOOT-strap, if we need a License ?
(It is a comercial product)
Some Internet pages writes "free to use of uCOS 1.0" - is this correct ?

regards,

Frank Goetze
